

ISLAM AS THE RELIGION OF HUMANITY

"ISLAM": The revelation of "ALLAH", our Lord, the Almighty God, was perfected and revealed unto Mohammad, the last of the Prophets of our Lord, as the Religion of all humanity with understanding hearts who believe in the unity in the (oneness) of God, in His Angels, in His revealed Books (Scriptures), in His Prophets and in the Hereafter.

Islam is not only the Religion of the Black man as some have said and are endeavouring to have others to believe. On the contrary, Islam was revealed as the Religion of humanity and the laws to be taken therefrom for our government and guidance and as a protection from all evils. As a matter of fact, Islam in itself is the sacred words of our Lord, Allah, the Almighty and Creator and Sustainer of Life, the Heavens and the earth and all that lies between them. Islam contains the Holy Command and Sacred Law of "Allah", our Lord God, Creator and Sustainer, which is the embodiment of Love, Peace, Justice, Truth, Fairplay and Tranquility when it is accepted, implemented and obeyed by all true believers.

All humanity were created by God free and equal through the creation of Adam and of the seed of Adam. All humanity are of the same seed and blood of our forefathers. Regardless of the color of our skin, hair and eyes, Allah created and color what He pleases. Color has the same value. It is just a matter of taste due to the somary environment, scholastic and social and home training that brings about race and color consciousness. For humanity were created free and equal, and with a freewill and a mind of our own. And the conscience to determine the Criterion of right and wrong, good and evil, and a brain to store up acquired knowledge. This special attribute was not given to the Heavenly Angels, therefore, it is the acquisition of knowledge that has made humanity higher than God's Heavenly Angels. Hence, our Lord revealed unto us through His chosen Prophets and Messengers in the form of books containing His Command and Sacred Laws for the righteous government and guidance of humanity, and warning to the unbelievers. Therefore, it is incumbent on humanity to acquire true knowledge as revealed by our creator and as taught and practice by His chosen Prophets. So that non can be misled, or be deceived.

It is unIslamic, inhumanly misleading and un-Godly to say that Islam is the black man's religion. (And quote): Islam was revealed also as the religion of the White Man, the Brown man, the Yellow man, the Red man and all humanity. It clearly proved that the person who made this statement, or advocate such teachings is lacking in the true knowledge as revealed in the Holy Quran and all previous scriptures. I believe he means that Islam is also the Religion of the Black man as well. Any Muslim movement or movements contrary to the five principles of Islam and its Sacred Laws is incorrect and will not receive the guidance and the blessings of "Allah".
