

THE SCIENTIFIC DEFINITION OF GENDER

FRONT/BACK aka “LONGFORM” BRAIN

Neural map of the male brain where neural connections are made from FRONT to BACK

LEFT/RIGHT aka “SHORTFORM” BRAIN

Neural map of the female brain where neural connections are made from RIGHT to LEFT

In all Male aka Front/Back brains, the neural connections are able to be made over a much longer distance of brain matter, which is from the FRONT of the brain to the BACK of the brain. Since Front/Back connections are much longer than Right/Left connections, the Male Brain is capable of a unique skill which is the ability to flip his computational method of logic into “perpendicular mode” where he can run a feminine “virtual machine” inside of his overarching masculine supercomputer by shutting out the longer neural connections and only running shorter neural connections that are equal (but not greater than) the distance between the LEFT/RIGHT hemispheres. This unique biological “sixth sense” allows the Male brain to interpret reality with a much higher percentage of accuracy than the Female brain, because a Male brain can compute reality using both the Masculine (aka LONGFORM) and the Feminine (SHORTFORM) logic, and can thereby compare any interpretation of reality through both a Masculine and Feminine perspective to detect the ORDER of any physics-based progression, confirming that a Masculine-Eternity came first, and a Feminine-Time came second and is thus contained INSIDE (not apart from) Eternity. Force, energy and matter occur in Masculine and Feminine forms, and only the Male brain can detect the difference between them.

In Female brains, the neural connections occur at a shorter distance between the Left/Right hemispheres. The Female brain cannot flip its computational method of logic into “perpendicular mode” to access longer neural connections. A longer distance cannot be contained INSIDE a shorter distance (whereas a shorter distance is ALWAYS contained inside a longer distance). The Female brain can only perceive feminine Math/Physics, and is biologically incapable of running a Masculine “virtual machine” inside of their feminine supercomputer to compare Masculine vs Feminine logic and determine the ORDER of a physics progression. The female always concludes that “masculine logic does not exist in reality” because they cannot access it. This deficiency of the female brain prevents it from competing with alpha-males like Einstein in the fields of math/physics because they cannot visualize concepts such as “Space-Time” which require access to both LONGER (Masculine) and SHORTER (Feminine) neural connections to “see” it. The male brain is better suited to all tasks, including logic computation, memory retention and comparative relativity. A woman can obtain limited comprehension of concepts like Space-Time (once a man explains it to them FIRST), but she still cannot “see” (with their brain) the shape/structure of these phenomena without LONGFORM neural connections to visualize them

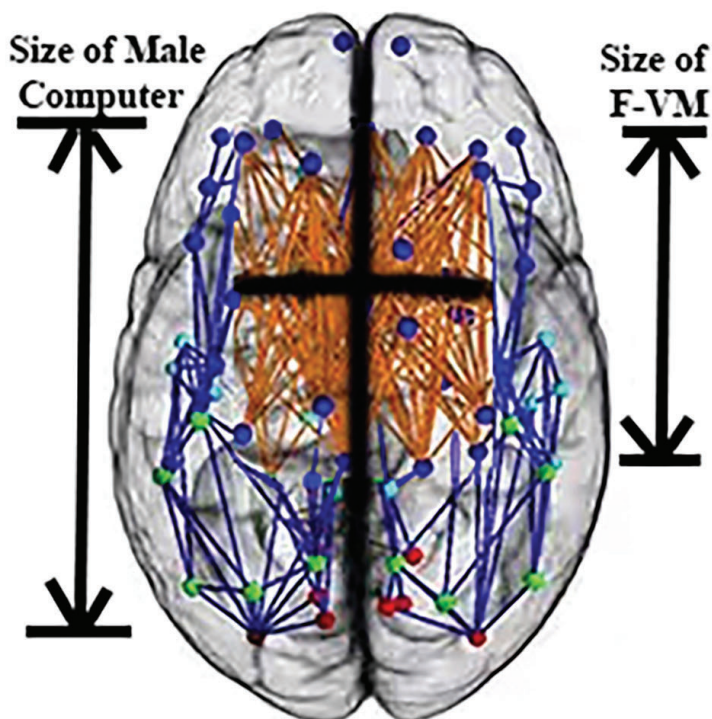

Your gender is solidified at the very moment a sperm fertilizes an egg, and your first brain cell becomes the first sign of your gender. 99.999% of the time, a FRONT/BACK (aka LONGFORM) brain automatically spawns a functional penis/testes and a LEFT/RIGHT (aka SHORTFORM) brain automatically spawns a functional vagina/ovaries. In all the brain scans performed, a FRONT/BACK brain NEVER spawns a functional vagina/ovaries, and a LEFT/RIGHT brain NEVER spawns a functional penis/testes. For a “homosexual” to exist in reality, a reversal of brainform/functional-genital from the two standard combinations already confirmed to exist would have to be observed in the brain scans of all humans who identify as “homosexuals” and yet this has NEVER been observed. For a “bisexual” to exist in reality, a “hybrid brain” that has a roughly equal amount of FRONT/BACK and LEFT/RIGHT connections must be observed in all humans that identify as “bisexual” and yet this has NEVER been observed. The brain scans thereby confirm that gender is immutable and any human that believes they have a “homosexual” or “bisexual” brain, is suffering from a hallucination because you can only have a male OR female brain (because no other types of brains exist in the body of all humans). If you claim to have a “homosexual” or “bisexual” brain, then you can also claim to have the brain of a dog, or a cat, or a mouse, or an elephant, and there is no limit to such hallucinations once you make the leap to claim that “an erotic brain is trapped in the wrong erotic body.” In .0001% of cases where a human is born with a genital deformity (aka hermaphrodite that has traces of both genitals present at birth), a simple brain scan can easily determine if the “hermaphrodite” is either Male or Female (because all hermaphrodites also have either a FRONT/BACK brain, or a LEFT/RIGHT brain). The medical solution to the rare case of “hermaphrodites” is to conduct a brain scan and then perform genital correction surgery so that their genital ALWAYS MATCHES THEIR BRAIN TYPE.

PERPENDICULAR MODE

Female virtual machine can fit INSIDE Male Computer

GOD IS MORE MASCULINE, THAN FEMININE.

EVEN IF GOD IS 51% Masculine and 49% Feminine, he is STILL MORE MASCULINE THAN FEMININE. And how do we know this? He created the Holy Spirit (a Male) and Adam (a Male) in his image. Yet he created EVE FROM ADAM. And so Adam was created, with an Eve already contained INSIDE him. An Eve can never contain an Adam inside her, but all Adams contain an Eve inside them.

Being a man, I can promise you that you never want to see my “feminine side.” My masculine side, is my peaceful side. My feminine side, is when I become unable to control my temper and resort to trying to solve a problem with my fists. Violence is always a failure of masculine intelligence. If the only solution to a problem that you can think of, is feminine rage, then keep looking because there is always a more peaceful masculine solution you have not thought of yet.

So what do you think is the true order of reality? That Masculine-Eternity contains a Feminine-Time INSIDE OF IT? Or Feminine-Time contains a Masculine-Eternity INSIDE OF IT? If you see death as “eternal” or as a form of eternity that is “contained inside of our timed-dimension” then you are suffering from **GENDER DYSPHORIA**.
